# FREDDIE the FIRE TRUCK™

FREDDIE the Fire Truck is an exciting new tool for teaching fire safety. A fully animated robot, FREDDIE moves, speaks, listens, plays audio cassette tapes and sounds his siren, all by remote control. He can wink and blink and move his eyes and with his smiling mouth he presents a positive and friendly image to young and old alike.

## VERSATILE

He can be used with great success in school classrooms, assemblies, parades, station tours, shopping mall exhibits, state and local fairs, and any other setting where your program is represented.

## EFFECTIVE

Shaped like a fire truck, FREDDIE is the ideal symbol for your department in the community. He's just the right size for teaching children. He can communicate with them at their eye level; and when he moves he's not at all threatening. He's perfect for hugs and kisses from small friends. He's agile enough to maneuver easily in school classrooms and other restricted areas; and with his headlights, taillights and flashing warning lights he is highly visible. FREDDIE will make your public relations program both fun and effective.

## INTERCHANGEABLE BODIES

FREDDIE is interchangeable with several other body styles, allowing you to combine your education program with other agencies in your area. P.C. the Patrol Car, Buster the School Bus, and Andy the Ambulance, all fit on FREDDIE's frame and electronics.

## FEATURES

### ◆ DURABLE BODY ◆

Detailed fire truck shaped body, molded of strong impact resistant plastic. Weighs less than 80 lbs., 37" long, 24" wide, and 37" tall. Body available in red or neutral white. Ladder, hoses, and control panel molded of black plastic (removable for painting if desired).

### ◆ FULLY MOBILE ◆

High quality electric drive motors and a deluxe radio control system, give FREDDIE complete mobility by remote control.

### ◆ VOICE SYSTEM ◆

Two-way (full-duplex) wireless voice system allows the operator to both talk and listen simultaneously.

### ◆ AUDIO CASSETTE PLAYER ◆

Rugged, stereo cassette player - operated by remote control.

### ◆ SIREN ◆

Operator controlled fire siren.

### ◆ LIGHTS ◆

Headlights and taillights switch on and off by remote control.

### ◆ EMERGENCY LIGHT BAR ◆

Remote controlled light bar with two quartz halogen rotating beacons adds excitement and visibility. Available in standard red or other colors on special request.

### ◆ RECHARGEABLE BATTERY ◆

Sealed maintenance-free gelled electrolyte lead acid battery (12 Volt 31 AH) included inside FREDDIE complete with automatic charger. Radio control transmitter comes with rechargeable NiCd battery and charger.

### ◆ MOVING EYES ◆

Eyes move left and right by remote control.

### ◆ MOVING EYELIDS ◆

Eyelids open and close separately. Allows FREDDIE to wink, blink, and go to sleep, all by remote control.

### ◆ REAR ACCESS HATCH ◆

Allows easy access to cassette player and other controls. Robot battery is easily removed through access hatch

### ◆ REMOVABLE TOP ◆

FREDDIE's top unlatches and is easy to remove in seconds, making him easy to transport.

### ◆ CONTROLS CARRYING CASE ◆

Molded polyethylene case 20"x16"x7" with locking latches and foam padded interior for protecting the operator controls during transport and storage.

### ◆ WELL BUILT ◆

Sturdy construction, easy to operate, designed for dependable service. Quiet industrial grade drive motors. Easily repaired.

### ◆ CUSTOMER SUPPORT ◆

90-day warranty on all parts and labor. A detailed owners manual, readily available technical support and spare parts are all part of our commitment to your success.
